

FINAL ANNOUNCEMENT

RECaSE2023

# 2<sup>nd</sup> INTERNATIONAL SYMPOSIUM OF REACTION ENGINEERING, CATALYSIS & SUSTAINABLE ENERGY

with 8-h BEM CPD Points

“Advancement in Green Chemistry for Sustainable Energy”

10<sup>th</sup> October 2023 | Virtual Conference

## CONFERENCE TOPICS

Chemical Reactor Design, Reaction Kinetics, and Catalytic Mechanisms | Microreactors, Reactive Distillation, and Membrane Reactors | Chemical Engineering | Catalyst Materials | Nanocatalysis | Biocatalysis | Catalysis for Green Synthesis and Fine Chemicals | Efficient Utilization of Fossil Fuel | Renewable Energy | Biomass Conversion | Biofuels Production | Environmental Catalysis | H<sub>2</sub> Production Technology | Fuel Cell Technology

## PUBLICATION

All accepted papers are invited to contribute to Scopus Indexed Proceeding OR Special Issue subject to peer review and Editor's decision.

- Chemical Engineering Research & Design (Elsevier, Q2, IF: 4.119)
